1. Introduction

This version 1.0 of the QNX Third Party License Terms List for the QNX Platform for Instrument Clusters (“TPLTL”) is the companion document to version of the QNX License Guide (“License Guide”) (see <http://licensing.qnx.com/document-archive/>). As explained in the License Guide, QNX Software Systems Limited (“QSS”) incorporates certain third-party software in our products. The license terms associated with some of the third-party software requires that we provide the recipient with additional information such as attributions, copies of licenses, or source code (“Compliance”). This document encapsulates Compliance for Screen.

This TPLTL is divided into two sections as follows:

1. The summary tables in section 2.1 provide an overview of types of licenses (“Legal ID Codes”) for third-party software that QSS has reused and that have Compliance requirements. The license types are not typically specific to a QSS-delivered component. For example, “BSD-4C” is a type of license also known as the BSD License with 4 Conditions for which you can see the template text on page 8.
2. The detail tables in section 2.2 provide more information about a specific instance of license including copyright marks and attributions notices found in source files or other documentation related to the source. For example, “BSD-4C:154” denotes that the specific instance of the BSD-4C license has copyright and attribution information as contained in Legal ID Number **154** on page 8.

Section 3 contains the full license text for each Legal ID Code (eg. BSD-4C) and for each Legal ID Number (eg. BSD-4C:154). Legal ID Codes are not identified in this document for QSS-delivered components that are distributed as source and such license information is retrievable directly from these human-readable files. Similarly, Legal ID Codes are not identified in this document for board support packages which are distributed separately and include such license information.

This version of Third Party License Terms List may be updated from time to time to correct oversights or errors. Check <http://licensing.qnx.com/document-archive/> to ensure that you have the most up-to-date information. Please contact licensing@qnx.com if you have any questions about this document.
