

## THIRD PARTY LICENSING CONSIDERATIONS SUPPLEMENT FOR QNX SOFTWARE DEVELOPMENT PLATFORM 7.1 AND 8.0

QNX SOFTWARE DEVELOPMENT PLATFORM 7.1		
THIRD PARTY LICENSING CONSIDERATIONS		
Software Package	Third-Party Licensor of Technology	Additional Details
QNX® SDP 7.1 wireless driver for the Cypress Wireless CYW89359	Cypress	QSS does not offer any WiFi or mobile device connectivity patent licenses or related intellectual property infringement indemnification.
QNX® SDP 7.1 wireless driver for the Marvell 8897	NXP	QSS does not offer any WiFi or mobile device connectivity patent licenses or related intellectual property infringement indemnification.
QNX® SDP 7.1 BSP for NXP i.MX 8 QuadMax	NXP	See note below table.
QNX® SDP 7.1 BSP for NXP i.MX8QXP CPU	NXP	See note below table.
QNX® SDP 7.1 Screen Board Support AM572/Jacinto6	Imagination Technologies, Texas Instruments	See note below table.
QNX® SDP 7.1 Screen Board Support i.MX6x	Vivante and NXP	See note below table.
QNX® SDP 7.1 Screen Board Support i.MX8	Vivante and NXP	See note below table.
QNX® SDP 7.1 Screen Board Support - Qualcomm C2D blitter	Qualcomm	See note below table.
QNX® SDP 7.1 Screen Board Support R-Car H3	Imagination Technologies	Use restricted to Renesas hardware products. See note below table.
QNX® SDP 7.1 Screen Board Support R-Car M3-W HW	Imagination Technologies	Use restricted to Renesas hardware products. See note below table.
QNX® SDP 7.1 Screen Board Support R-Car M3-N HW	Imagination Technologies	Use restricted to Renesas hardware products. See note below table.
QNX® SDP 7.1 Screen Board Support RGX	Imagination Technologies	See note below table.
QNX® SDP 7.1 Screen Board Support SGX	Imagination Technologies	See note below table.

Any Board Support Package (“BSP”) component provided by BlackBerry: (i) is restricted to use solely in association with the QNX Neutrino RTOS and the particular hardware product for which the BSP component has been made available, and (ii) may contain confidential information of BlackBerry or its licensor(s).

QNX SOFTWARE DEVELOPMENT PLATFORM 8.0		
THIRD PARTY LICENSING CONSIDERATIONS		
Software Package	Third-Party Licensor of Technology	Additional Details
QNX® SDP 8.0 wireless driver for Synaptics (BCM43XXX family of chipsets)	Synaptics	QSS does not offer any WiFi or mobile device connectivity patent licenses or related intellectual property infringement indemnification.
Screen Board Support i.MX8MP	NXP and Vivante	See note below table.
Screen Board Support i.MX8QM	NXP and Vivante	See note below table.
Screen Board Support i.MX8QXP	NXP and Vivante	See note below table.
Screen Board Support - NXP Vivante blitter	Vivante	See note below table.
Screen Board Support - NXP iMX8X series, common files	NXP	See note below table.
Screen Board Support for TI J721E	Imagination Technologies, Texas Instruments	See note below table.
QNX® SDP 8.0 BSP for NXP i.MX8M Plus CPU	NXP	See note below table.
QNX® SDP 8.0 BSP for NXP i.MX93 CPU	NXP	See note below table.

Any Board Support Package (“BSP”) component provided by BlackBerry: (i) is restricted to use solely in association with the QNX Neutrino RTOS and the particular hardware product for which the BSP component has been made available, and (ii) may contain confidential information of BlackBerry or its licensor(s).
